FOR IMMEDIATE RELEASE

MTE Consultants Acquires Surveying Firm, Holstead & Redmond

MTE Consultants is continuing to thrive in London, Ontario with the recent acquisition of Holstead and Redmond. MTE now has 30 staff in London since opening an office there last year. The firm they acquired has provided land and legal surveying services since 1952, and currently has a staff complement that includes Ontario Land Surveyors, surveying professionals and technical support team members.

“Our strong growth in the London market can be attributed to our people, both new and relocated staff, who have connections within the community and relationships with clients and business partners that are based on trust and quality service,” said President Ted Rowe. “Moreover, London’s flourishing economy has also helped accelerate our growth in this region.”

Over the past year, MTE has focused on becoming an active member in the community through involvement with local organizations and causes. This has included providing in-kind services to Habitat for Humanity Heartland Ontario on their Forbes Street build, and supporting local organizations such as the London Home Builders’ Association, London and District Construction Association, London District Heavy Construction Association, London Chamber of Commerce, and the London chapters of Professional Engineers of Ontario and the Canadian Condominium Institute.
